GRECO STROM

Bedtime Accessories

Certifications

GRECO STROM is particularly proud that all certifications have been received by the Oeko-Tex, Swiss Approval International, Bureau Veritas, LRQA Business Assurance & MIRTEC SA. These are institutions that check with frequent inspections the proper implementation, maintenance and continuous upgrading of the quality systems.

GRECO STROM

DESIGN, PRODUCTION, QUALITY CONTROL AND DISTRIBUTION OF THE COMPANY'S PRODUCTS HAVE BEEN CERTIFIED ACCORDING TO:

STANDARD 100 BY OEKO-TEX®

IT CONCERNS THE ABSENCE OF HARMFUL MATERIALS AND SUBSTANCES FROM BABY AND CHILDREN'S MATTRESSES and all the materials that make them up. OEKO-TEX® STANDARD 100 is a uniform system of laboratory testing and certification for textiles in raw, intermediate and finished form from all stages of production and is recognised internationally throughout the world. The tests are carried out by independent partner institutes on the basis of the extensive OEKO-TEX® criteria. The tests take into account numerous prohibited and non-prohibited substances which may be harmful to health. In many cases the STANDARD 100 limits are stricter than national and international requirements.

SWISS APPROVAL INTERNATIONAL

THE GRECO STROM MATTRESSES have been tested and certified by the Swiss Approval International, as compliance with applicable European directives and regulations. The products comply with the requirements of the European Standard: EN 16890:2017. Children's furniture - Mattresses for cots and cribs - Safety requirements and test methods.

THE MATTRESSES OF THE BODYTOPIA AND THE HYPNATURA SERIES have been tested for durability and have been certified by the Swiss institution with the safety certification and quality of Swiss Approval products International in compliance with existing European directives and regulations and comply with the requirements of the European standard: EN 1957: 2012 & EN 1334: 1999.

ISO 9001 INTERNATIONAL QUALITY MANAGEMENT SYSTEM

ISO 9001 is an internationally recognized standard for quality assurance and quality management for businesses.

ISO 14001 INTERNATIONAL ENVIRONMENTAL MANAGEMENT SYSTEM

ISO 14001 is an internationally recognized standard for environmental management by businesses. It provides guidelines and required checkpoints that must be applied to any activities having an impact on the environment.

ISO 13485 INTERNATIONAL QUALITY ASSURANCE SYSTEM FOR MEDICAL DEVICES

THE ISO 13485 standard establishes the requirements of the quality assurance system for companies involved in designing, producing, trading, installing and providing technical support for medical devices and products.

MARINE MATTRESSES APPROVAL BY MIRTEC SA (MATERIALS INDUSTRIAL RESEARCH & TECHNOLOGY CENTER)

UPGRADING QUALITY PRODUCTS that are required to meet specifications and are suitable to equip ships, yachts, hotels and general spaces and it is considered necessary to use mattresses with particular fire resistance, therefore GRECO STROM designs and produces a new series of mattresses that meet the requirements as outlined in Directive 2014/90 EU and Regulation (EU) 2020/1170 for MED / 3.21 bedding product group.

- SOLAS 74 Reg. II-2/3, Reg. II-2/9 & Reg. X / 3 &
- IMO Res. MSC. 307 (88) - (2010 FTP Code) Annex 1, Part 9

ALTERNATIVE PACKAGING MANAGEMENT

WITH ABSOLUTE RESPECT TO THE ENVIRONMENT, GRECO STROM belongs to the innovators of the alternative packaging management system in collaboration with the Greek Recycling Recovery Company.

IT'S A BEDTIME STORY

Pillow

ALL YOU NEED TO KNOW

Medical studies confirm that one of the most important factors for ideal sleep is the correct body position. More specifically, the spine and especially the cervical spine must be aligned.

Choosing the right pillow helps alignment as it covers the gap between head and mattress. Therefore, a proper pillow is necessary to achieve a comfortable and relaxed sleep.

If sleeping on the back side, a soft or moderate pillow is needed so that the spine does not recline.

An important choice

Similarly, if sleeping front side, a soft and low pillow is needed so that the head can turn while sleeping without exerting much pressure on the neck. On the other hand, while sleeping sideways, a taller and harder cushion is needed, that will support better the head and keep the spine aligned.

For someone who does not have a sleeping position, it is advisable to use two soft or moderate pillows when sleeping sideways and one when sleeping on the back or on the front side.

Understanding and having in mind the principle role, a pillow plays for ideal sleep, **GRECO STROM** has developed a complete range of sleeping pillows that perfectly meet every need.

Latex Standard

NATURAL RUBBER & ELASTOMER

GRECO STROM LATEX STANDARD pillows

have the same physical properties as natural rubber but different texture.

They are made of natural rubber and hypoallergenic elastomer.

Main feature is the great elasticity that properly supports the head and neck.

Specially designed holes allow proper air circulation that contribute to the maintenance of the ideal temperature.

Pillows

NATURAL RUBBER & ELASTOMER

Inner filling from natural rubber & hypoallergical elastomer.
Outer cover Satin Stripes, detachable and washable.

DIMENSIONS

45 x 65 x 14 cm

40 x 60 x 14 cm

Memory Foam

MEMORY FOAM

GRECO STROM Memory foam pillows ensure absolute comfort and wellness that only a memory foam can offer you. This material creates “non-gravity” conditions and it was used by NASA to relieve the pressure astronauts had to deal with. The elasticity of memory foam eliminates the pressure from the head and neck while it relaxes the muscles and offers comfort during sleep. Their construction philosophy highlights them in the most ergonomic products.

Pillows

MEMORY FOAM

Inner filling from memory foam.
Outer cover Satin Stripes, detachable and washable.

Toppers

TOUCHING PERFECTION

Perfection of ideal sleeping conditions is what motivates us every step of the way.

Therefore, to offer people who trust us with the utmost sleep experience, we proceeded with the design and production of special mattress toppers.

The toppers are placed above the mattress to reinforce their appearance and its special features to the fullest extent, making sleep a dreamy sensation of comfort and luxury.

EXTERNAL DETACHABLE COVER
WITH ZIPPER-WASHABLE 30° C

SOFT & COMFY FABRIC

Soft & Comfy fabric is designed to offer unique elasticity and softness. The knitting process in combination with the elastic viscose allows flexibility and comfort. It adapts to the body shape and body movements, without limiting the characteristics of the other materials placed in the mattress. Produced from high quality yarn, eliminates moisture and perspiration during sleep. Hypoallergenic, breathable and friendly to the human skin, gives a unique feeling of comfort, unparalleled quality and high aesthetics, resulting to cheerful mood and wellness. Soft & Comfy fabric is manufactured with the specifications of the European OEKO-TEX STANDARD 100.

STABILIZER

special ecological fabric that unifies and stabilizes the whole topper.

VISCOOL

Latest generation and high quality memory foam with thermoregulatory properties that transforms cutting-edge technology into a pioneering sleep experience. Thanks to its open cell structure, it allows inner air circulation, reducing perspiration. This material is enriched with natural moisturizer and is produced using micro-pellets of "Phase Change Materials Technology", which gives it excellent thermal regulating properties. It acts as a natural shield against microorganisms that grow from house dust mites and germs. No harmful substances are used in the production process for the human body, it is scentless and can be washed as many times as needed without losing its properties and original shape. Its exceptional durability has been confirmed through durability control processes, which in combination with its revolutionary properties, promote it in one of the most sophisticated materials for the production of innovative sleeping products that ensure absolute comfort and wellness.

The inner materials are described in the order they are placed on the topper for each of its two sides

Toppers are produced in all the desired dimensions.

LATEX LAYER COMFORT PLUS

Latex is a white, milky liquid that comes from the extracts of the *Hevea brasiliensis* tropical tree and that is often found in Southeast Asia. For the production of LATEX LAYER COMFORT PLUS a specialized process is used which gives it unique flexibility and excellent restoration. It follows and perfectly adapts to the body contour to ensure the pressure distribution exerted during sleep.

In this way, it promotes proper blood circulation in the spine and the limbs. Its numerous holes allow for optimum ventilation of the mattress, preventing the growth of microbes, fungi and mites, thus ensuring the best hygiene conditions and wellness. Greco Strom guarantees the use of the best latex quality selected from controlled plantations and is strictly tested before and during the production process. The inner materials are described in the order they are placed on the topper for each of its two sides.

Mattress covers

Protective

FOR A LONGER & HEALTHIER LAST

Even if we have the ideal mattress for us, it is essential to protect it with special covers so that it can provide us with all its sleep benefits during sleep for a long time.

Our special **GRECOSTROM** mattress covers protect the proper hygiene conditions while at the same time extend its lifespan. That is because, during sleep our body eliminates flakes skin, and sweat thus favoring the creation for the growth of microorganisms.

The best way to secure a healthy, clean, and safe sleep, is to choose one of the protective mattresses covers **GRECOSTROM**.

Mattress Covers

→ VELVET

IT PROVIDES A LONG-TERM PROTECTION from fungi, bacteria, and mites, while thanks to the waterproof membrane it prevents the permeability of liquids to the mattress ensuring a healthy sleeping environment. The cover has a border grip for easy and perfect adjustment. The fabric of the cover is manufactured with the specifications of the European OEKO-TEX STANDARD 100.

→ COTTON

Waterproof cotton protective cover that maintains the proper hygienic conditions of the mattress. The cover provides a border grip for easy and perfect adjustment. The fabric of the cover is manufactured with the specifications of the European OEKO-TEX STANDARD 100.

→ ANTIBACTERIAL MEMBRAN SAFETY

Its fully waterproof membrane ensures absolute protection from stains and physical secretions. The cover provides a border grip for easy and perfect adjustment. The fabric of the cover is manufactured with the specifications of the European OEKO-TEX STANDARD 100.

BLENDING SCIENCE WITH WELLNESS & RECOVERY!

The GRECO STROM & Nanobionic partnership combines science, technology and nature.

The technical know-how, the high quality, and the incomparable luxury create a fabric of exceptional durability and softness.

GRECO STROM & Nanobionic sheets are made of 100% Egyptian cotton. The process of collecting Egyptian cotton by hand, achieves the creation of extremely long and durable fibers. The fine yarns created by the fibers are then woven into a soft, high-quality fabric.

Nanobionic technology

→ NANOBIONIC

CONSTITUTES THE NEXT GENERATION
OF BIO FUNCTIONAL MATERIALS

NANOBIONIC HAS BEEN DETERMINED BY THE
FDA AS A GENERAL WELLNESS PRODUCT.

NANOBIONIC IS A CLINICALLY PROVEN TECHNOLOGY that will enhance
the wellness and recovery environment of every human being.

PROMOTES RESTFUL SLEEP

A DURABLE YET SOFT COATING is applied to the fabric. This coating
harnesses the natural energy of the body to promote a consistently
better recovery

ENHANCES FASTER RECOVERY

The technical know-how, the high quality, and the incomparable
luxury create a fabric of exceptional durability and
softness. Nanobionic technology constitutes the next generation of
bio functional materials. It is a mixture of natural minerals that is
applied to the fabric surface transfusing the feature of channeling
the body heat and returning it, as invisible energy waves, creating
the feeling of body activation and relaxation

Electric

CONTEMPORARY TECHNOLOGY

Removes the feeling of moisture from the mattress and covers, with a beneficial benefit for those suffering from rheumatism, arthritis, vertebra arthritis, and other similar diseases. The electric Hug blanket is designed to be placed above the mattress and the protective mattress cover and under the sheet (bottom sheet). It has three-level controls, separately for each side and specialized sensors that read exactly the adjustable temperature. Due to its size, it provides heat to the entire width of the mattress, except for the headrest, which is not allowed to be used. With materials friendly to humans and the environment, it will offer you complete safety, delight, and warmth.
